Services are categorized here simply to list in order. Our clients use various services in combination, such as managing their Internet presence and Internet LAN connections along with on-call PC and application support. We do as much or as little as you require, and though we mention a lot here, we are not limited to this list. Talk to us and together we'll create a custom support plan to meet your specific needs.

Internet Presence Management

- Management of domains, email, DNS, web hosting accounts and other services
- Internet connections
- Routers and firewalls
- Filtering

Web Site Services

- Design and graphics
- Installation
- Webmastering
